MEDIA RELEASE

Property Based Game Management Field Day, Nagambie (20 July 2010)

The Department of Sustainability and Environment (DSE) held a Property Based Game Management Field Day at Nagambie on Tuesday 20 July 2010, 11am – 3pm, BBQ lunch was provided.

Landholders were shown how land management and development techniques can be used to improve habitat for game species which could enable sustainable game hunting on private land.

Techniques which were looked at included native plant revegetation, water resource protection, conservation incentives available and information on how to cater for game hunting.

Central to the Property Based Game Management program is the protection and management of habitat which adds value to biodiversity across the landscape.
